2 Browse

You can Browse in two ways: 1. Search for a **Topic** that you are currently learning, and view the many **Courses** and **ZingPaths** related to that topic you are searching.

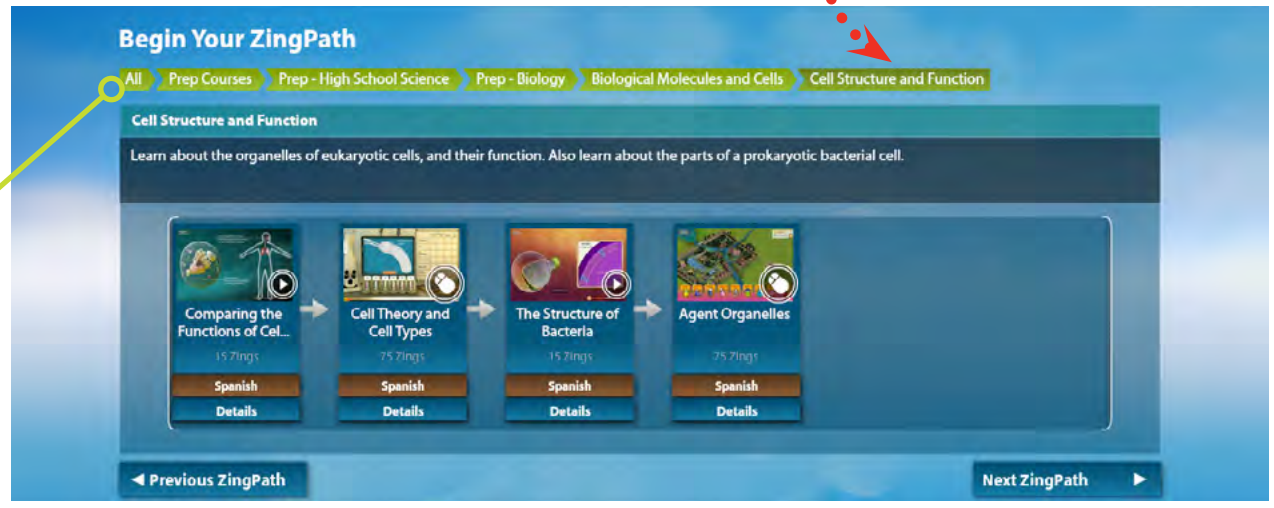

The screenshot shows the Uzinggo interface with a search bar containing 'Biology Cell Structure'. Below the search bar, a section titled 'ZingPaths related with "Biology Cell Structure"' lists 67 results. A table shows the following results:

Course	ZingPath	Zings
Life Science	Cell Structure	540 zi
Life Science Review	Cell Structure	240 zi
Biology Prep Course	Cell Structure and Function	330 zi
Biology	Cell Structure	390 zi

Below the table, there is a description for the 'Cell Structure' ZingPath: 'Learn about the parts of a cell and their functions. Help develop the cell theory and discover how to detect different cell components using staining techniques in a virtual microscopy laboratory.' A list of Zings includes 'Cell Theory and Cell Types', 'Comparing Plant and Animal Cells', 'The Surface Area-to-Volume Ratio of Cells', and 'Surface Area-to-Volume Ratio in Organisms'. A hand cursor is shown clicking on the 'Cell Structure' ZingPath thumbnail.

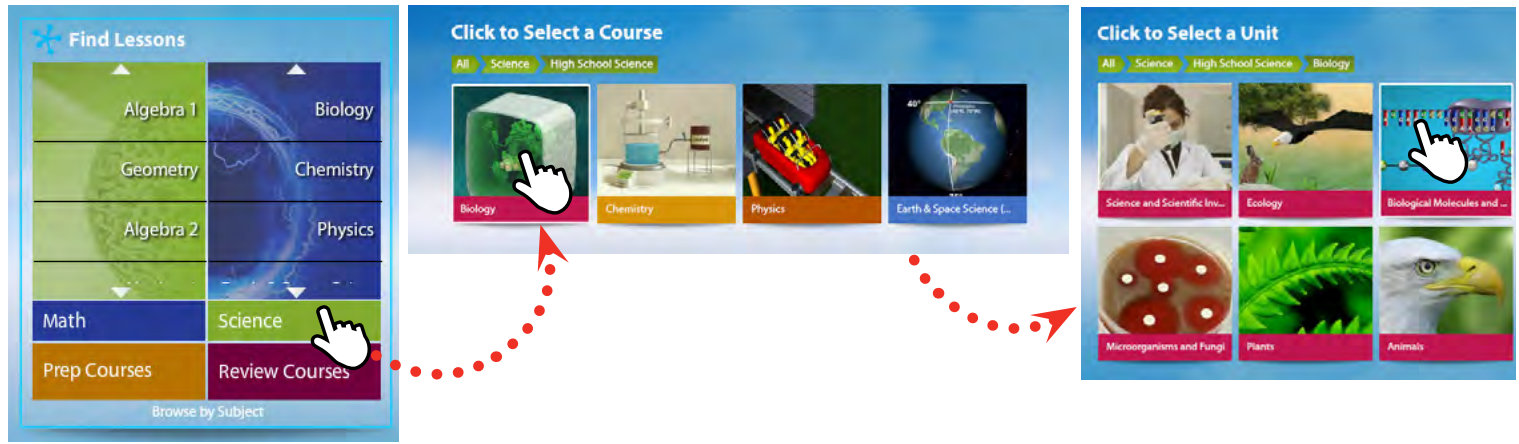

Scroll down and click on a **ZingPath**, a sequence of lessons that provide the best way to learn a specific topic, like "Biology Cell Structure."

The screenshot shows the 'Begin Your ZingPath' page for 'Cell Structure and Function'. The breadcrumb trail is: All > Prep Courses > Prep - High School Science > Prep - Biology > Biological Molecules and Cells > Cell Structure and Function. The main heading is 'Cell Structure and Function' with the sub-heading 'Learn about the organelles of eukaryotic cells, and their function. Also learn about the parts of a prokaryotic bacterial cell.' Below this, a sequence of four ZingPath cards is shown: 'Comparing the Functions of Cel...', 'Cell Theory and Cell Types', 'The Structure of Bacteria', and 'Agent Organelles'. Each card has a 'Spanish' button and a 'Details' button. A hand cursor is shown clicking on the 'Cell Theory and Cell Types' card. Navigation buttons for 'Previous ZingPath' and 'Next ZingPath' are at the bottom.

To get back to a previous page, click a green marker at any time while you are within a ZingPath.

2. To Browse in another way, select a **Topic** from the menu of options and drill down by subject to find a **ZingPath** you would like to try!

The screenshot shows the 'Find Lessons' interface with a grid of subject categories: Algebra 1, Algebra 2, Math, Prep Courses, Biology, Chemistry, Physics, and Science. A hand cursor is clicking on 'Science'. Below this, the 'Click to Select a Course' page shows a breadcrumb trail: All > Science > High School Science. It features four course thumbnails: 'Biology', 'Chemistry', 'Physics', and 'Earth & Space Science L...'. A hand cursor is clicking on 'Biology'. Below this, the 'Click to Select a Unit' page shows a breadcrumb trail: All > Science > High School Science > Biology. It features a grid of unit thumbnails: 'Science and Scientific In...', 'Ecology', 'Biological Molecules and ...', 'Microorganisms and Fungi', 'Plants', and 'Animals'. A hand cursor is clicking on 'Biological Molecules and ...'.

3 Launch

Begin Your **ZingPath!**

- Discover **Activities**, an interactive lesson
- Watch an **Animation**, an animated video clip or interact with a **3D Model**

TIP: Complete the whole **ZingPath** for optimal reward points.

Click to go back to previous ZingPaths

Click to begin a lesson

Details: Read about the lesson before you start **Activity:** An interactive lesson that includes assessments and learning sheets

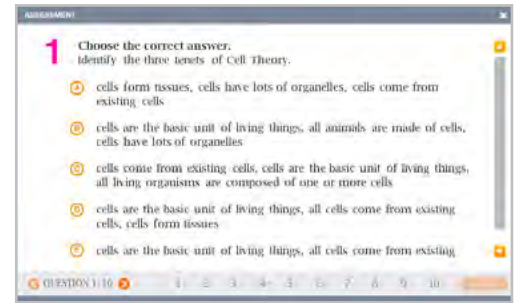

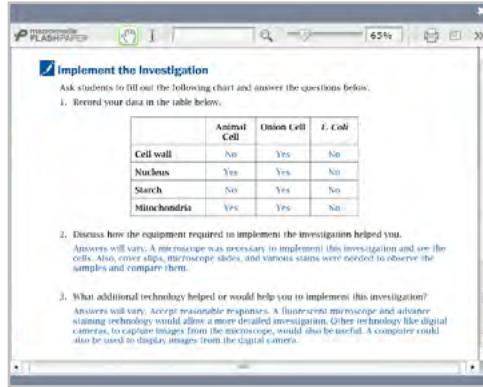

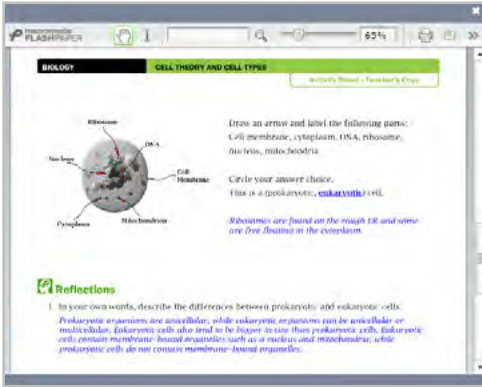

Objectives provides students and parents with clearly stated learner outcomes and developing abilities for each Activity

Teacher Guide: Instructions for each activity

Sections to complete within each Activity

Resources

- Take learning to the next level with the [Free Teacher/Parent Resources](#) within an Activity or Animation

Teacher Activity Sheet
Answer key with support notes for the Student Activity Sheet

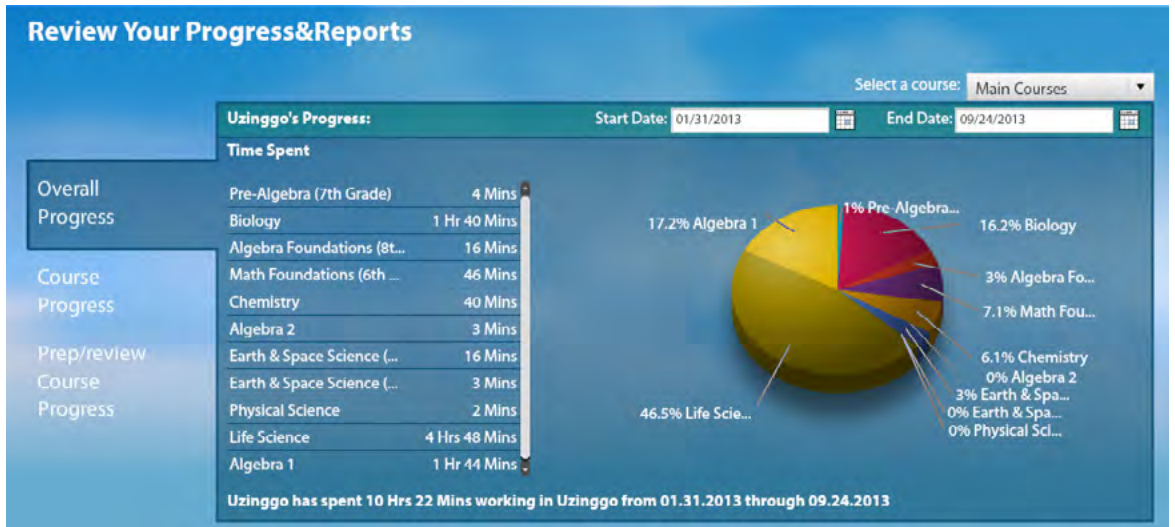

Teacher Lab Sheet
Participate in an investigation and help your student apply what they learned from the Activity

Assessment
Review the results of the multiple-choice assessment to see how well your student learned the Activity

4 Analyze

Track Your Progress and Points Earned!

- Overall Progress** shows individual courses and time spent on each

Course Progress shows:

- Time spent per course and activity
- Assessment scores
- Points earned (**Zings**)

REPORTS

Select a course: **--All--**

Course Progress	Progress	Time Spent	Time Estimated	Assessment Scores	Points Earned
Overall Progress	3%	20 Mins	6 Mins	N/A	180
Course Progress	Completed	20 Mins	6 Mins	N/A	180
Prep/review Course Progress	Completed	10 Mins	4 Mins	N/A	15

	Not Started	0 Min	20 Mins	-	0
	50%	2 Mins	15 Mins	-	0

Rewards

Hey Students, cash those **Zings** in and go to town!
Turn your points into fun rewards, games and badges!

In the **Student View** there are two ways to cash in your rewards:

- On the green navigation bar, click on **Zings** Button
- Click on **View my Zings** tile, which showcases your earned levels, zings and badges

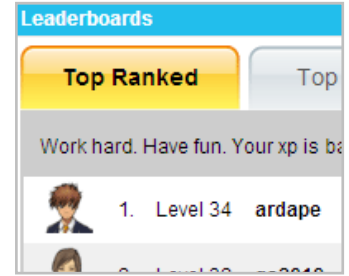

Earn Badges as you learn

Go ahead. Be a showoff!

Build an Avatar

Make a digital version of you.

Get on the Leaderboard

See how you are doing compared to others.

Adopt a Virtual Pet

"Ruff, Ruff" means "math and science" in dog.

Create a Virtual Room

Decorate it as you wish.

Score Cool Merch

Enter to win cool merchandise!
